

Ort Graph

Did you know that \$ 161.6 BILLION dollars' worth of food is thrown away in North America every year? – USDA, 2014.

Ort: A leftover bit or scrap of edible food not eaten by the end of the meal.

Ort must be consumable pieces of food. Would you eat or measure a chicken bone or apple core?

While at Camp JOLT, you will be challenged to collect your schools ort! This will help us all to **analyze, compare, and reduce** our waste. Shade in each meals ort amount based on the ort level given on the white boards during each meal.
